## TEN CONVERSATIONS

about

# PRODUCTIVITY

How can you get more and better results? How can you increase productivity without increasing staff and resources. And, how can you do it without just demanding more from your already hard-working employees?

Let's talk.

Gather your leadership team for ten in-depth, facilitated conversations about improving productivity. We'll explore the leading approaches, and discuss how they fit with your organization. We'll identify key factors that can make or break your efforts to improve.

Practical and provocative, these sessions will inspire, challenge, and re-energize your team, and trigger continuing improvement in productivity, morale and engagement.

Inquire today for costs and scheduling options in your area.

### Your Facilitator:

Dave Hunchak, President and lead consultant at Swift Fox, is a senior Professional Engineer with repeated, proven success as an entrepreneur, business owner and executive.

Dave has experience in numerous industries in a diverse blend of technical, management, and executive roles, in companies large and small. Throughout, the common thread has been learning how to get people, processes and technology working together for ever-improving results, within his own companies and those of his clients.

He's worked with companies in manufacturing, large-scale construction, nuclear power, oil and gas, software, music, retail, dealer networks, property management, agriculture, and mining; in small technology startups and large international corporations. With experience in corporate ownership, management, service, technical support, R&D, production, international sales, engineering design, marketing, HR, finance & operations, he can speak your language.
